GREENHOUSE MANUFACTURING CO.

## GREENHOUSE PRICE LIST

### 2023

Sturdi-Built Greenhouse Mfg. Co., 11304 SW Boones Ferry Rd., Portland, OR 97219

Sturdi-Built.com

## Sturdi-Built Greenhouse Features

- Framed with Clear All-Heart, Kiln Dried Redwood: The highest quality framing material available — warm, beautiful, durable and naturally resistant to deterioration.
- Custom greenhouse widths and lengths are available for all models except Trillium. Most of our models can be modified to fit unique situations, such as a pre-existing foundation or wall.
- All models can be paired with our redwood and cedar base wall with built-in vents. Or, build your own (dimensions provided).
- Glazing: Standard glass is our material of choice, however twin wall polycarbonate glazing or tempered glass are available. A popular combination is tempered glass in the roof with standard glass walls.
- Thermal Option: Use our exclusive Thermal Option to create a more energy-efficient and insulated greenhouse. See page 8 for more information.
- Hassle-free Roof Venting: All of our models include non-electric Automatic Roof Vent Opener(s).
- Handmade Redwood Doors: The size and type of door varies with the greenhouse size and model. Doors can be hinged right or left and made to swing in or out. "Dutch" and double door options available.
- Add beautiful redwood benches or shelves for your plants and workspace needs. Prices listed for benches are for full-length along side wall(s).
- Jalousie Windows: Increase ventilation by adding jalousie windows. Attractively framed in redwood.
- Add our eave overhangs, finials, gussets or ridge scallop to add style to your greenhouse.
- Exclusive Prefabrication: Greenhouse end walls are factory pre-assembled and shipped.

## Receiving Your Greenhouse

**Local Delivery** - Pacific Northwest only. The greenhouse kit arrives as individual components. If you select Factory Prefabrication, the roof, end walls, and side walls will arrive as pre-assembled sections.

**Pick-up in Portland** - Call ahead and let us know the type of truck or trailer you will use. Bring straps and tarps (plan for the weather), we will help you load. Customers have flown to Portland for holiday and rented a truck to drive their greenhouse kit home with them. Your greenhouse will not be crated.

**Ship Common Carrier** - When we ship a greenhouse kit, we email you tracking information. The carrier will call to schedule a date/time window for delivery. Shipped greenhouse kits are crated for protection. Uncrating is easy.

**Door-to-Door, Nationwide** - The greenhouse kit is loaded at our dock and is driven directly to your location. This option avoids the risk of freight damage, and permits factory prefabrication of the roof and side walls.

Prefabricated sections for delivery or pickup

Crated for shipment

## Lean-to Styles

### Solite Lean-to

5 1/2' wide model has 6'-4" high door (2" shorter than standard). Consider placing it on an 18" high base wall to allow for standard 6'-6" door. Additional base wall costs apply.

Width	Length	Greenhouse without Base Wall	Tempered Glass or Twin Wall Roof				
			9.5" High Base Wall	Thermal Option	1-Tier Benches	2-Tier Benches	
<b>5 1/2' Lean-to</b>	9'	<b>\$ 5,640</b>	\$ 390	\$ 1,410	\$ 390	\$ 380	\$ 510
height: 8'-2"	11'	<b>6,350</b>	420	1,560	460	390	530
24" wide door	12'	<b>6,600</b>	440	1,650	510	600	780
<b>7 1/2' Lean-to</b>	12'	<b>9,020</b>	520	2,090	700	660	920
height: 8'-2"	14'	<b>10,320</b>	680	2,290	830	800	1,140
30" wide door	16'	<b>11,420</b>	830	2,480	950	800	1,140

7' Tudor Lean-to

### Thermal Option

- A double glazing system exclusive to Sturdi-Built Greenhouse - create a more energy-efficient and insulated greenhouse.
- Choice of materials: window-clear acrylic or white twin wall polyethylene. The white twin wall provides some shading and light diffusion.
- The Thermal Option can be added to all or any part of the greenhouse, either now or later.
- Designed to breathe to accommodate the high humidity levels and moisture condensation always present in greenhouses. Installation is easy.
